**Andraca Campaign Statement on Wisconsin Republicans' COVID-19 Exposure**

WHITEFISH BAY - Following the news that Senator Ron Johnson tested positive for COVID-19 and that he may have exposed many local Republicans to the virus, including her opponent Representative Jim Ott, Deb Andraca released this statement:

“COVID-19 is a potentially deadly virus that must be taken very seriously. I sincerely hope that my opponent, Representative Jim Ott, tests negative and I appreciate his decision to self-quarantine. To beat this virus we must come together as a community -- not as candidates or supporters of one campaign or another -- because only by working together can we protect our most vulnerable friends and neighbors.”

More information about the campaign can be found at [www.debforwi.com](http://www.debforwi.com)
